PRODUCT SPECIFICATIONS

Battery Capacity	15,000 mAh
Type	Lithium Polymer
Input	5 V/1A
Output	5 V/3.4A

CHARGING YOUR PHONE OR OTHER PORTABLE DEVICE

NOTE: For best performance, make sure that the Pocket Juice Charger is fully charged. Refer to opposite page for charging instructions.

1. Insert one end of the included **Micro USB cable** or the **original cable** that came with your device into the phone. Insert the other end into the USB port of the Pocket Juice Charger. You may also charge a second device at the same time by using a second Micro USB cable.
2. Turn the Power Bank on by pressing the Power ON/OFF button, the charging process will start. Charging time will depend on the type of device. Your device will display the charging progress.
3. When charging is complete, disconnect.

CHARGING YOUR POCKET JUICE CHARGER

NOTE: Your Pocket Juice Charger comes pre-charged. Depending on a few factors, some of the battery might have discharged during transit.

QUICK POWER TEST: Perform the test by pressing on the Power button. The Indicator Lights will illuminate accordingly (see charging chart on right). After 5 seconds, the LEDs will turn off automatically.

A Via AC Adapter/Wall Charger: Using the provided Micro USB cable, connect your Power Bank (Micro USB port) to an AC Adapter (USB port – not included).

B Via Computer: Using the provided Micro USB cable, connect your Power Bank (Micro USB port) to the computer/laptop (USB port).

CHARGING CHART

■ ■ ■ ■	75-100% energy remaining
□ ■ ■ ■	50-75% energy remaining
□ □ ■ ■	25-50% energy remaining
□ □ □ ■	0-25% energy remaining

It takes approximately 3-4 hours to fully charge your Pocket Juice Charger (from depleted unit). Once the charging is in progress, the Indicator Lights will illuminate accordingly (see charging chart above).

When the charging is complete, all Indicator Lights will remain lit until you disconnect your Pocket Juice Charger from the power supply.

NOTE: Once fully charged, the Pocket Juice Charger is able to re-charge most smartphones several times depending on the battery capacity of the cell phone and the condition/age of the cell phone battery.

IMPORTANT SAFEGUARDS

- Do not use this unit for anything other than its intended use.
- Keep the unit away from heat source, direct sunlight, humidity, water or any other liquid.
- Do not expose the device to extremely high or low temperatures, as it may damage the battery.
