- 1x A24 LED ColorBulb light bulb
- 1x Wireless Remote
- 1x User Manual

### WIRELESS REMOTE CONTROLS

Button 1 and 2 can be used to control the brightness for button 5, change the speed for button 6,7,8,9.

1. Brightness (Up)
2. Brightness (Down)
3. Power OFF
4. Power ON
5. LED Color Buttons -16 colors
6. Flash Transition Effect
7. Strobe Transition Effect
8. Fade Transition Effect
9. Smooth Transition Effect

When remote control operation becomes slow, it is time to change the battery. Replace with a new cell battery  
\*Compatible with CR2025-CR2032 battery types

### System Requirements

- Existing light socket (E27 Base)

### SPECS

Voltage:	AC100-220V
Voltage Frequency:	50/60HZ
Power:	5W
Luminous Flux:	400-500
Color Temperature:	2700K-3300K
Lifespan:	10,000 hours
Beam Angle:	120°
Working Temperature:	-10°C-40°C
Product Dimensions:	φ2.36" x 4.64" (φ60 x 118mm)
Weight:	38G

### IMPORTANT SAFEGUARDS

This device complies with Part 15 of the FCC Rules. Operation is subject to the two following conditions:

1. This device may not cause harmful interference
2. This device must accept any interference received, including interference that may cause undesired operation

**IMPORTANT:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in Accordance with the instructions, may cause harmful Interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- reorient or relocate the receiving antenna.
- increase the separation between the equipment and receiver.

- connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- consult the dealer or an experienced radio/tv technician for help.

To satisfy FCC/IC/RF exposure environments a separation distance of 20 cm or more should be maintained between the antenna of this device and persons during device operation. To ensure compliance, operations at closer than this distance is not recommended.

### Read and follow precautions before installing:

- Use in a dry location only - Risk of electric shock or burns
- Do not install this device with wet hands or while standing on damp and wet surfaces.
- Suitable for use in operating environment between -10 C and 40 C (14 F and 104 F)
- Not for use in totally enclosed lamps. Do not use with dimmers. Ensure that the voltage of the LED light bulb is compatible with the main electricity of your country before connecting to a bulb holder. Ensure that the base of the bulb matches the bulb holder. When the light bulb reaches the end of its cycle the bulb should be replaced.
