

COLORWORKS USER GUIDE

INTRODUCTION

Bring the spectacle of fireworks indoors with the tzumiLED® ColorWorks LED Wall Light! These fireworks-shaped LED strips light up your personal space with their bright and highly customizable glow. Use the included wireless remote to adjust the brightness and choose from over a dozen different colors and light effects. Featuring four timer settings and music sync modes for extra fun and convenience.

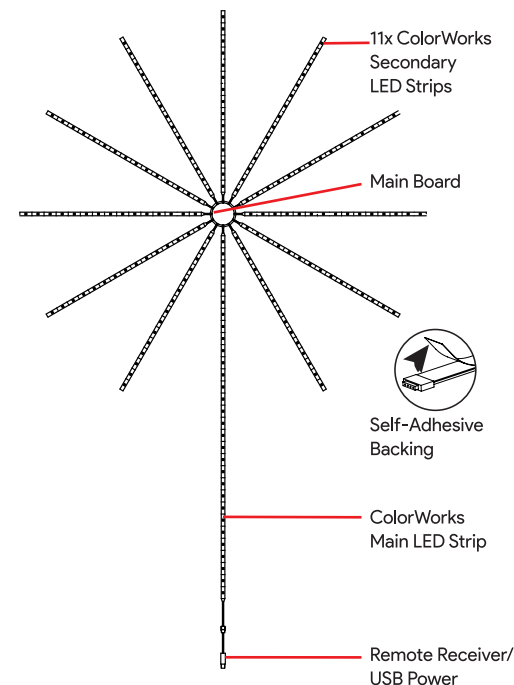

FEATURES

- Exciting and eye-catching firework design.
- Customizable brightness, colors, light effects, and IC points.
- Easy peel-and-stick adhesive backing that can be applied to any wall.

WHAT'S INCLUDED

- ColorWorks Main LED Strip
- 11x ColorWorks Secondary LED Strips
- Wireless Remote
- Remote Receiver
- Main Board
- Two-sided self-adhesive pad
- User Guide

PRODUCT DIAGRAMS

ASSEMBLY

1. Connect the remote receiver to the main LED strip.
2. Plug the main LED strip into the power port on the main board.
3. Connect the secondary LED strips to the main board.
4. Peel off one side of the two-sided self-adhesive pad, and stick it to the back of the main board.

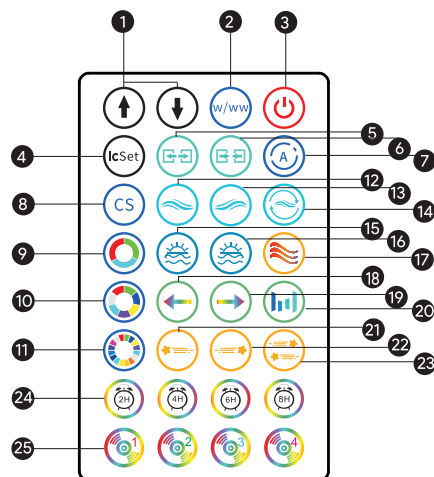

INSTALLATION

1. Choose a vertical surface on which to apply the ColorWorks LED Wall Light. Clean it thoroughly to remove all dust, oils, and fingerprints.
2. Locate the USB power source that will be used to power the wall light, and make sure the USB cable has enough slack to reach safely. The remote receiver must also be visible for the remote to work properly.
3. Peel off the backing of the sticker on the back of the mainboard. Apply the main board to the vertical surface of your choice. Press down for a few seconds to secure it.
4. Carefully peel off the backing of the LED strips to expose the adhesive. Apply the strips to the cleaned surface, starting from the secondary strips. Press down for a few seconds to secure them.
5. Once all installation steps have been completed, plug the remote receiver into a USB power source.

INSTALLATION (CONTINUED)

6. Once connected, remove the protective plastic strip from the remote to activate its battery.
7. Press the POWER button to turn the ColorWorks LED Wall Light ON.
8. Refer to the next page to customize your LED light.

- Power: Up to 8W
- Size: 79 x 40 in.

REMOTE SPECS

- Working distance: up to 15 ft.
- Power supply: CR 2025 battery
- Size: 3.3 x 2 x 0.27 in.

IMPORTANT SAFEGUARDS

- Keep this product away from flammable objects.
- Do not install this product near heat sources or in direct sunlight.
- Always ensure that all parts have been properly assembled in order to prevent electrical short circuits.
- Do not connect the LED wall light to a power source until all installation steps have been completed.
- Do not cut any part of the LED strips or their connectors. Doing so may damage the LED strips.
- Make sure the remote receiver is not covered or blocked in any way. This ensures the proper operation of the wireless remote.
- If this product malfunctions, do not try to repair it yourself. Take it to a qualified technician instead.
