## PAIRING THE SPEAK TO A BLUETOOTH DEVICE

1. Press and hold the power button for 3 seconds to turn the speaker ON.
  - a. The AquaBoost will automatically be in pairing mode when turned ON.
2. Open your device Bluetooth menu and select "AquaBoost Boom".
3. You will hear a tone to confirm that your device has successfully paired to the speaker.
4. You are now ready to go. Be sure to turn the speaker OFF when you are done to conserve battery life.

## CHARGING THE SPEAKER

1. Use the included Micro-USB charging cable to connect the speaker to a USB power source.
  - A LED indicator light will turn solid red while charging.
2. The LED indicator light will turn off once fully charged.
3. Be sure to disconnect the cable when charging is finished.

## USING THE SPEAKER

1. After pairing to a Bluetooth device, inserting a MicroSD card or attaching a USB flash drive, the speaker will automatically detect the music source and will be ready to play.
2. If there is more than one music source available, press the Power button to switch between sources.
3. Press the Play/Pause button to play/pause the music.
4. Press the '+' button to go to the next song/track, or the '-' button to retract to the previous song/track.
5. Press and hold the '+' or '-' buttons to increase or decrease the speaker volume.

## AUX MODE

1. Press the power button to switch to AUX mode. You will then hear a tone prompt.
2. Next, plug one end of your 2-in-1 Micro-USB and AUX Cable into the speaker Micro-USB charging port and connect the other end to a phone or computer.
3. AUX mode allows you to play music/audio from any phone or computer.
4. Use your mobile device controls to play/pause, change songs, or manage the volume.

## HANDS FREE PHONE CALL

1. When you have an incoming call, you will hear a ring tone through the speaker.
2. Press the Play/Pause button to answer the call.
3. When finished, press the Play/Pause button again to end the call.
4. Press and hold the Play/Pause button to reject an incoming call.

## TWS MODE

1. This speaker can be linked to a second speaker to create a HD sound system.
2. To use this function, you must have a second speaker the same model as this (8226).
3. Before pairing the speaker to a device, press and hold the M button on one speakers to link them to each other.
4. Once linked, proceed with 'PAIRING THE SPEAKER TO A BLUETOOTH DECIVE' section.

## GENERAL TIPS

- The MicroSD card port reads MicroSD cards to play music.
- The USB Port reads USB flash drives to play music.
- The speaker will reconnect automatically once turned on if your device has previously been paired.
- It should take about 3 hours to fully charge the speaker.

## FCC Warning

- Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
- This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

## FCC Warning Continuation...

- This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
  - Reorient or relocate the receiving antenna.
  - Increase the separation between the equipment and receiver.
  - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
  - Consult the dealer or an experienced radio/TV technician for help.

## FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
